

Elena Damakova

ICT & Advanced Media Design Student

PROFILE

My name is Elena Damakova, a 22-year-old graduating ICT student at Fontys University of Applied Sciences in the Netherlands. I am looking for a **graduation internship** starting in February 2026 that will allow me to expand my expertise in User Interface design and User Experience research while contributing to meaningful projects. Alongside my academic studies, I have developed strong interests in graphic design & web and mobile application development. I am a motivated and communicative person who combines creativity with structured problem-solving, always aiming to deliver high-quality results.

EXPERIENCE

Freelance - UX/UI Designer

- | Remotly
Jan 2023 - currently

In my spare time I do UI designs for websites and apps. One that I am most proud of is "Athena Arts". I like to design for small businesses that need help with user interaction and proper UX.

Front-End Developer - Internship

- Agile methodology | Vue.js, React.js, UX/UI design
Sep 2024 - Feb 2024

My key focus is to deliver a user-friendly, scalable solution that simplifies content creation for the marketing team, while ensuring smooth data flow between Contentful, Nuxt 3, and Shopware. I am responsible for developing reusable CMS components.
